## The LaTeX Brochure

This is the most recent version (Jan 2008) of the publicity flyer for LaTeX that I showed at the TUG meeting in Delaware in 2001. It is designed for printing on A3 paper, double-sided, and folding once to A4. If time allows, I will try to engineer a Ledger version (twice Letter size) in the future.

If you have been maintaining a mirror or other copy of this document, please update it with this version.

## License

This is free documentation, including all sources. You can do anything you like with it, subject only to the following conditions:

1. you must keep the authorship and all attributions intact: you must not pretend that you or anyone else except the author wrote it;
2. you must not sell it or make money or otherwise profit from it without explicit written permission from the author;
3. you must not make it available from another server without these conditions, including this condition, being imposed on all subsequent users.

Downloading any of these files implies acceptance of these conditions.
