

string

openssl/ssl.h

sslstrerror.h

```
graph BT; A[sslstrerror.h] --> B[string]; A --> C[openssl/ssl.h];
```

The diagram illustrates the dependencies of the `sslstrerror.h` header file. At the bottom, a black box with white text contains `sslstrerror.h`. Two blue arrows originate from this box and point upwards to two separate white boxes with gray borders. The left box contains the text `string`, and the right box contains the text `openssl/ssl.h`. This visualizes that `sslstrerror.h` includes or depends on both `string` and `openssl/ssl.h`.
