

cgi.h

sessionserver.h

```
graph TD; cgi_h[cgi.h] --> httphead_h[httphead.h]; sessionserver_h[sessionserver.h] --> httphead_h;
```

httphead.h

The diagram illustrates the dependencies of the `httphead.h` header file. Two header files, `cgi.h` and `sessionserver.h`, are shown at the top. Arrows point from each of these headers down to the `httphead.h` header at the bottom, indicating that `httphead.h` includes or depends on both `cgi.h` and `sessionserver.h`.
