

Hash Functions: SHA-256

```
graph LR; A[Hash Functions: SHA-256] -.->|sha2k32.h| B[Hash Functions: SHA-224]; A -.->|sha256.h| C[Hash Functions];
```

The diagram illustrates the relationship between different SHA hash functions. A central box labeled 'Hash Functions: SHA-256' is connected by dashed green lines to two other boxes. The top box, 'Hash Functions: SHA-224', is reached via a line labeled 'sha2k32.h'. The bottom box, 'Hash Functions', is reached via a line labeled 'sha256.h'.
